REAL ESTATE IN VIRGINIA FOR SALE.

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms. It consists, first, of 947 acres of land, in from two and a half to four miles of Brentsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Raifroad, which will be completed to Brentsville this year. This land is well adapted to the growth of wheat, corn, rye, oats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plaster, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a company, or will divide it to suit purchasers, at prices ranging, according to quality, at from \$2\$ to \$8\$ per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or blacksmith, with two dwelling-houses, kitchens, blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1600 is now my price for this property—on the same terms as the land. It is within a mile and three-quarters of the railroad.

Thirdly, Nine and a quarter acres of land on the turnpike, just above Buckland, on which are a good dwelling-house, a large wheelwright shop, kitchen, stable, dairy, and smoke-house. It would make a good tavern stand, and the shop a good stable. For this property I will take \$600—on the same terms.

Fourth

tion, but might be easily resuscitated, and is a very good place for the business. For this I will take \$400—on like terms.

Fifthly. A lease lot in Haymarket, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghany county, Maryland, containing 200 acress, within eight miles of the National Road, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood, is heavily timbered, has a good and never-failing stream of water running through it, and several mill-seate; abounds in iron ore and coal; has a fine sugar maple orchard on it, and a mineral spring, which I think equal to the White Sulphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William county, Virginia, will be shown by Eppa Hunter, esq., who is authorized to sell; or by Mr. Edwin W. Latimer, or Mr. Robert Hodgkin. I shall be in Brentsville about the middle of May, and will, in person, show the property to any one wishing to purchase.

FURNISHING MAIL LOCKS & KEYS.

Post Office Department,

March 14, 1851.

It being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than ask months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keysadapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract nay be made be

Mr. Robert Sears—Dear Sir: I have looked over the entire series of your valuable publications with much interest and profit; and am quite surprised at the amount of literary labor you have performed, and the research it must have cost you to obtain so many fine illustrations, while you have an active superintendence of an extensive business. I am also gratified at the decidedly moral and religious influence which your books will exert, and cannot but hope that they will do much to counteract the effects of that light and immoral literature which deluges the land, and, like the frogs of Egypt, comes up-even to the kneading troughs of our kitchens. May you live long to follow your plans.

Respectfully and sincerely, your obliged servant, EDWARD HITOHCOCK.

Our increased patronage has enabled us, during the past
year, to open offices in Cincinnati, Louisville, St. Louis,
and New Orleans; these, in connection with our long established offices in Boston, New York, and Baltimore,
enable us to offer facilities and advantages which time and
experience alone could accumulate, and which we believe
are unequalled.

We are prepared to make collections in any of the States,
Territories, Canada, England, Ireland, Scotland, France,
Germany, and in any commercial port of the world, and
will pay particular attention to old and doubful debts, in
the collection of which class we have extraordinary facilities, and have been unusually successful.

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplet without them.

BLACKWOOD'S MAGAZINE

BRITISH QUARTERLY REVIEWS. WING to the late revolutions and counter-revolutions among the nations of Europe, which have followed each other in such quick succession, and of which "the end is not yet." the leading periodicals of Great Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treaties to be furnished by the historian at a future day. Whoever reads these periodicals obtains a correct and connected account of all the important political events of the Old World, as they occur, and learns the various conclusions drawn from them by the leading spirits of the age. The American publishers therefore deem it proper to call renewed attention to the works they publish, and the very low prices at which they are offered to subscribers. The "North British Review" owes its establish." burgh Review" Whig, and the "vestimistic Review" owes its establishment to the last great ecclesiastical movement in Scotland, and is not ultra in its views on any one of the grand departments of human knowledge. It was originally edited by Dr. Chalmers, and now, since his death, is conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order. The "Westminster," though reprinted under that title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage, by this combination, of uniting in one work the best features of both, as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—Blackwood's Magazine being an exact fac simile of the Edinburgh edition.

WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution is situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are filustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

Principal, Wilmington, Del. MORE HOME EVIDENCE.

MIN. JAS. L. HAMILTON—DEAR SIR: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the discusses which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from the use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and inpaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

THE Undersigned having entirely rebuilt and enlarged the above extensive establishment, containing in all about three hundred and fifty rooms; would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawingrooms, will be found to be of the most beautiful and tasteful manufacture. The Diming-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor piedges himself that the American House shall be truly the Traveller's Home, mar 24

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain seventeen English volumes condensed in seven.

"We respectfully commend this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

Three Volumes—\$9.

From 1796 to 1840—To be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal justice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

Austin's Magtic Freezer,

Austin's Magic Freezer, Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented Sep-

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—

1 lst. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no repleaishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. E. JACKSON,

Eutaw House, Baltimore, May 15, 1848. I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons), making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

First Premium Grand and Square Pianos.

KNABE & G.EHLE. Manufacturers, Nos. 4, 6, 8, 9, and 11 Eutaw street, 3altimore. New tributes to the excellence of Raltimore made Piano Fortes. The Maryland Institute, at their last exhibition, awarded to us the First Premium for the best Grand Piano, and also the First Premium for the best Grand Piano, and also the First Premium for the best Square Piano exhibited. It will be recollected that in 1848, our Piano also received the First Premium by the same Institute.

Such testimonials are not easily earned, and are not to be lightly regarded. We may therefore say that having taken the First Premium, wherever our Instruments met with competition, we offer them to the public with a confidence we might not otherwise avow, guaranteeing all Instruments made by us to give satisfaction, or they may be exchanged within six months from day of sale. The durability of our workmanship we further guarantee for five years.

Having just completed large additions to our Manufactory, we hope now to supply all who may honor us with their patronage; and we invite all who desire a superior Instrument, carefully adapted to the climate—a very important matter, and which we have made our careful study—to call and examine our various styles, which we are constantly finishing, and which will be sold at the lowest market price for cash or approved paper.

In addition to the above public testimonials, our Pianos are recommended in terms of the highest praise by the following eminent artists, whose certificates can be seen at our Warercoms: Charles Bochsa, the great composer and musical director to Mad. A. Bishop; Mr. Geo. Knoop; Miss Adele and Charles Hohnstock, and other distinguished performers. To the many accomplished Professors and Amateurs, by whom our Pianos are constantly used, whilst making our thankful acknowledgments to them, we refer for further testimonials.
